Summary

Hi, my name's Baransel a highly-skilled and motivated full-stack developer with 7+ years of experience. I have experience making software & web/mobile apps with ability to learn and collaborate in rapidly changing environments and compositions. Proficient in developing databases, creating user interfaces, writing and testing code, deploying to the cloud, troubleshooting simple/complex issues. Eager to tackle any web/mobile development and design challenges to achieve lasting impacts on user experience. I have worked at a numerous startups as well as big companies gaining teamwork and leadership skills.

Experience

Senior - Full Stack Engineer

Gameloft Romania

Jun 2022 - Present (1 year 6 months)

During my tenure at Gameloft, I have demonstrated exceptional skills as a web developer by contributing to the development of various high-quality and innovative applications. Utilizing my expertise in backend technologies such as PHP, Symfony, and Javascript, I have designed and implemented robust and efficient server-side systems. Furthermore, my proficiency in frontend technologies such as React, Angular, and MaterialUI has enabled me to create engaging and user-friendly interfaces. I have effectively utilized Amazon RDS DB to implement efficient data storage and retrieval solutions, ensuring the seamless functioning of the applications. My proficiency in DevOps technologies such as NGINX, Docker, GIT, Bash, and AWS has allowed me to effectively manage and maintain software systems, ensuring their stability and reliability. I am proud to continue my association with Gameloft and am committed to delivering outstanding results through my technical expertise and knowledge.

Full Stack Engineer

MobSoft Technology SRL

Oct 2017 - May 2022 (4 years 8 months)

During my 5-year tenure at Mobsoft, I honed my technical skills as a full-stack software developer. I utilized a wide range of technologies to design and develop high-quality, scalable software solutions for clients. My expertise in backend technologies such as PHP, Symfony, Python, and Javascript allowed me to create robust and efficient server-side applications. Additionally, my proficiency in frontend technologies such as Materialize, Bootstrap, Tailwind, React, and Angular enabled me to create engaging and user-friendly interfaces. I also gained extensive experience in mobile app development using Flutter, Swift, and Java. My knowledge of various databases such as Mongo, MySQL, Redis, and Elasticsearch allowed me to implement effective data storage and retrieval solutions. Furthermore, my proficiency in DevOps technologies such as NGINX, Docker, GIT, Bash, and AWS allowed me to manage and maintain large-scale software systems efficiently. With my experience in socket.io, crawlers, automation, and server management, I am equipped to handle the complexities of modern software development.

Education

Universitatea Româno-Americană din București

Computer Science

2019 - 2021

I obtained a Bachelor of Science degree in Computer Science for Economics from the Romanian-American University, where I further deepened my understanding of the field. Despite having worked as a software developer for 4 years prior to my studies, the university curriculum provided me with a comprehensive and well-rounded education in computer science for economics. The curriculum emphasized both theoretical concepts and practical skills, allowing me to solidify my foundation in computer programming, data structures, algorithms, and database management. Furthermore, exposure to various cutting-edge technologies and programming languages equipped me with the technical expertise required to excel in the rapidly evolving technology industry. The coursework I completed at the university honed my ability to analyze complex problems and design efficient solutions, making me highly qualified for a career in this field.

Skills

Doctrine (PHP) • Back-End Web Development • Agile Environment • Agile Methodologies • Amazon Web Services (AWS) • React.js • AngularJS • JavaScript • Python (Programming Language) • Swift (Programming Language)
